Information

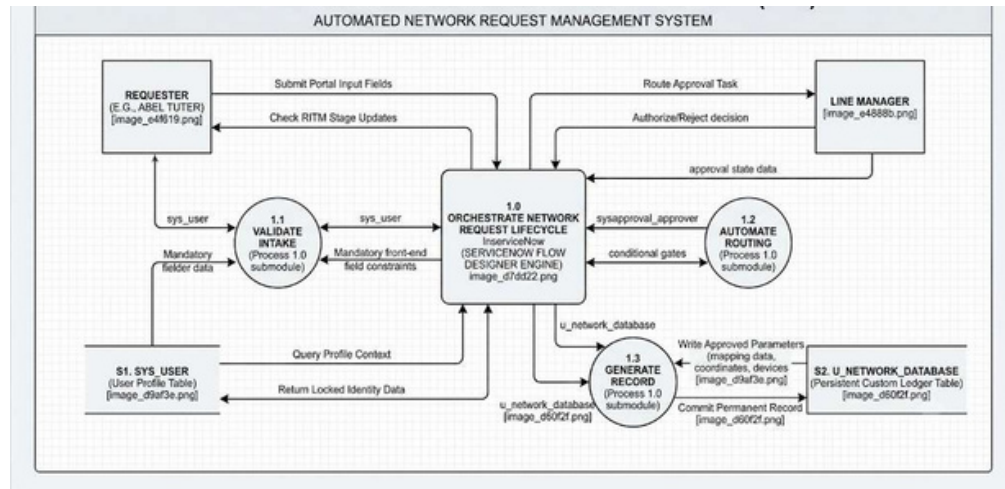

Notification: Request approved: RITM0010007 was approved. Request description: Network Request. Requested item number: RITM0010007. Short description: Network Request. Thank you, Fullstack Team.

Data Flow Diagram (DFD) Specifications

To represent the structural architectural mechanics of your project, use this structural description to create or select a standard DFD Level-0 / Context Diagram or DFD Level-1 chart.

Core Elements of your DFD:

1. External Entities (Actors): * Requester (Employee/Abel Tuter): Initiates data ingestion workflows via portal interactions.
 - o Line Manager (Approver): Authorizes or rejects execution path changes.
2. Processes (System Transformations):
 - o Process1.0 (ValidateFormInputs): Front-end UI application checks variables and auto-populates profiles.
 - o Process2.0(Orchestrate Approvals): Flow Designer executes business validation on state gates.
 - o Process3.0(Update Inventory Records): Commits approved values to database stores.
3. Data Stores (Persistence Ledger):
 - o sys_user (User Table): Core resource profile repository.
 - o u_network_database(CustomDatabaseTable): The ultimate permanent tracking schema ledger.

User Stories Table

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
 Customer/Requester Abel Tutor [cite: image_e7e69f.png]	REQUEST PORTAL INTAKE [cite: 1]					
	Automated Network Management (Epic 1)	 USN-01	User Name to portal in and u_network_database	- Search deskw intranet. 1] - Does or contai in ne queue 1] - Search has stapped out below. 1]	Priority	Sprint-1
		 USN-02	User Name to re-fill auto-fill	Auto-fill systemic wrentions in thentification is havour. [1]	High	Sprint-1
		 USN-03	User Necomme. u_network_database	Check old matidata in izienity connecte tat3 instructions.	Low	Sprint-2
 Administrator/ Approver	Corporate Permtusion It [cite: 1]	 USN-04	User Name / approval intranet	Request anagement compersel3s suppor queue [1]	Low	Sprint-2
	APPROVAL AUTOMATION [cite: 1]					
	Approval Approval Administrator/ Automation [cite: 1]	 USN-05	Connext-cnnvar claimed recont records	- Consum-grade Portal Experience - Context-Aware UI Policies - Approval ("u_network_database")	Approval	Sprint-1
		USN-06	Context-aform approval database	Confused clannied interfaces Approval automation	Low	Sprint-2
		USN-07	Connectw3n network network management	- Data-ractive injection - Results in worksration request and insturted queue [1]	Low	Sprint-2
		USN-08	Is this a New connection or Relocation [cite: 1]	Instant record injection	Low	Sprint-1 Sprint-2
